NEW ELEGANCE

FURNITURE

COLLECTION 2022

www.newelegance.pl

NEW ELEGANCE
FURNITURE

Product of the highest quality and unique designs. PREMIUM beds are distinguished by their deep quilting, which provides a spectacular 3D effect.

PREMIUM BED SYSTEM

Adjust the Premium bed to your needs.

8 steps to build your dream comfort.

1. APPEARANCE

Select the headboard quilting. You have 4 deeply quilted patterns to choose from.

headboard 22

headboard 33

headboard 66

headboard 77

2. HEIGHT

Select the height of the headboard. All headboards are available in two heights:

- 100 cm
- 120 cm

4. FABRIC

Choose the type and color of the fabric. Especially for you, we have selected a collection of several hundred fabrics. They will meet your expectations and the most demanding tastes in terms of color and quality. You can choose the fabrics in our showrooms or on www.newelegance.pl. Headboard 33 is also available in natural leather.

3. WIDTH

Select the bed width. Sizes from 140 to 200 cm are available. Not all headboard designs are available in all widths. This is due to the specific pattern and its transferability to the size of the headboard. Detailed dimensions of individual beds can be found on pages presenting separate models. Remember that the width of the bed is always greater than the width of the mattress.

5. BED BASE

Select the height of the bed base. Two heights to choose from:

- BED BASE C - 30 cm**
- BED BASE W - 36 cm**

The height of the bed base should be selected according to individual preferences and height. Beds with a higher base make it easier to get up in the morning.

bed base C

bed base W

6. LEG

Select the leg type. There are 4 legs available: metal legs B and 35 or wooden legs C and 29 in 10 colors. The colors of the wooden legs can be found on page 51 of the catalog

7. WITH OR WITHOUT A STORAGE?

Bed is available in several configurations of bed slats and storages. Choose the solution that suits you and your needs

bed without a storage

The bed is equipped with a solid support for the bed slats.

Bed gives the possibility of mounting the bed slats at 3 different heights. This allows you to better adjust the bed to the height of the mattress.

To make the bed complete, you need to choose proper bed slats. Full offer can be found on page 45 of the catalogue.

side opening lift up storage bed (left and right version available)

in the picture: right side opening version

front opening lift up storage bed

Two types of frames are available for side and front opening lift up storage beds: Standard frame or Comfort frame with side or front opening.

Mounting position of the frame in storage bed.

STANDARD L53 FRAME

- 24 flexible slats 53 mm wide
- spacing of 25 mm between lamellas
- metal frame with a cross-section of 40 x 30 mm
- bed slats height about 55 mm

COMFORT L38 FRAME

- 30 flexible slats with a width of 38 mm
- - spacing of 25 mm between lamellas
- - a metal frame with a cross-section of 40 x 40 mm
- - bed slats height about 70 mm
- - 6 lamellas with hardness adjustment

Flexible duoflex holders ensure double depreciation and no so-called dead zone in the middle part of the bed slats frame.

8. MATTRESS

Choose a mattress for your bed. The complete range of mattresses on pages 42-44 of the catalog.

NEW ELEGANCE
FURNITURE

CONTINENTAL BED COLLECTION

The most popular form of upholstered bed in the world. The construction based on independent elements of the bed base, headboard and mattress gives you an unlimited choice. Besides the possibilities of various configurations, the convenience and practicality of this solution is an important aspect.

Adjust the bed from the CONTINENTAL BED collection to your needs. 5 steps to have a perfect bed.

1. THE BASE IS THE BASE

The most important part in continental beds is the bed base. Start with the choice of the bed base. It determines the size of the bed, its height and, most importantly, comfort and functionality. We offer 9 bed bases with different parameters.

A. STANDARD BED BASE

Solid construction made of chipboard and wood, felt filling with a weight of 500g, T25 foam with thickness of 1 cm, upholstery wadding 100g / m², cover made of jersey and upholstery fabric.

B. BONELL BED BASE

Solid construction made of chipboard and wood, Bonell spring (height 12 cm, 108 springs / 1 m²), felt filling with a weight of 500g, T25 foam with thickness of 2 cm, upholstery wadding 100g / m², cover made of jersey and upholstery fabric.

C. POCKET BED BASE

Solid construction made of chipboard and wood, Pocket spring (height 13 cm, 255 springs / 1 m²), felt filling with a weight of 500g, T25 foam with thickness of 2 cm, upholstery wadding 100g / m², cover made of jersey and upholstery fabric.

E. POCKET LUX BED BASE

Solid construction made entirely of wood. Pocket spring (height 13 cm, 255 springs / 1 m²), felt filling with a weight of 500g, T25 foam with the thickness of 2 cm, upholstery wadding 100g / m², cover made of jersey and upholstery fabric. Bed base E ensures lack of the so-called dead zone between two bases.

CONTINENTAL BED SYSTEM

P. BED BASE FOR FRONT OPENING LIFT UP STORAGE BED

Construction of bed base P is made of wood, lamellas: 20 flexible slats 53 mm wide, distance between lamellas 40 mm, T25 foam with the thickness of 1 cm, felt filling with a weight of 500 g, Fibertex

Internal dimensions of the storage for a 90 cm wide bed base 192x82x18 cm

Lifting up with a double mattress

R. BED BASE FOR SIDE OPENING LIFT UP STORAGE BED

The continental bed base R guarantees high comfort, providing additional space under the mattress at the same time. The unique height of the bed base allows you to get the maximum height of the bed, and also makes the storage space huge. Construction of bed base R is made of wood, lamellas: 20 flexible slats 53 mm wide, distance between lamellas 40 mm, T25 foam with the thickness of 1 cm, felt filling with a weight of 500 g, Fibertex.

Large storage. Internal dimensions of the storage for a 90 cm wide bed base 192x82x23 cm

Lifting up bed base R with mattress. The basics are available in the left and right version

S. BED BASE WITH BEDDING DRAWER

The bed base S of continental beds is a solution that provides us with the use of a storage also in a situation where the exceptionally high and heavy mattress lies on the base. Construction of bed base S is made of wood, 20 wooden slats 55 mm wide, distance between slats 50 mm, T25 foam with the thickness of 1 cm, felt filling with a weight of 500 g, Fibertex.

Spacious drawer in the bed base. Internal dimensions of the drawer for the base width:
80 cm - 138x66x20 cm
90 and 100 cm - 138x76x20 cm

LEFT bed base

43 cm including the headboard. Be careful not to place wider elements directly next to the bed as this will limit the possibility of using the drawer.

Only legs with a height of 4 cm in types 21, 24, 27, 30, 33 can be used with the bed base S (see next page).

M. FREE-STANDING BED BASE (ALL SIDES UPHOLSTERED)

The bed base M of continental beds has the same features as the bed base R. The only difference is the all-side upholstery, which allows the base to be placed each side into the interior. Construction of bed base M is made of wood, lamellas: 20 flexible slats 53 mm wide, distance between lamellas 40 mm, T25 foam with the thickness of 1 cm, felt filling with a weight of 500 g, Fibertex.

NOTE!!!
4 sides are upholstered. No possibility of fixing the headboard

Z. BED BASE FOR FRONT OPENING LIFT UP STORAGE BED

Bed frame height 9 cm. Solid construction made of wood, underlay for springs made of chipboard of 1cm, Pocket spring (height 6 cm, 255 springs/1 m²), T25 foam with thickness of 1 cm, felt filling with a weight of 500g, cover made of jersey and upholstery.

Large storage. Internal dimensions of the storage for the base with a width of 90- cm 192x82x22 cm

Frame holder No. 1
Frame holder No. 2 hidden under the mattress

*available legs can be found on page 9

CONTINENTAL BED SYSTEM

2. APPEARANCE AND SIZE OF THE HEADBOARD

Select the type of headboard from among 20 patterns. The offer includes both simple headboards, such as headboard 100, as well as very decorative ones like 301. Practical solution in our offer are SMART headboards, in which we used an unconventional wall mounting solution without fixing the headboard with the base. Height is a choice according to individual needs and housing possibilities. The offer includes both compact headboards types 201 or 202 as well as huge ones like type 700. The size range is very large. For size details see the presentation of each headboard on the following pages.

3. FABRIC

Select the type and colour of the fabric. We have selected especially for you a collection of several hundred of fabrics, which, in terms of colour and quality meet the expectations of the most demanding tastes. You can choose fabrics in showrooms or on website.

4. LEGS

5. MATTRESS

In our offer you will find 7 mattress designs with different utility parameters. A detailed description of the mattresses can be found on pages 42-44 of the catalogue. Each mattress is available in two versions of the sides finish. STANDARD- the sides made of breathable fabric with high air permeability. LUX- sides made of the same fabric as the bed base and headboard which gives the effect of uniformity of the whole product.

NEW ELEGANCE
FURNITURE

UPHOLSTERED BEDS

Upholstered beds from the N.E. 2020/2021 collection.

6 steps to suit them to your needs.

1. APPEARANCE

Upholstered beds from our offer are already completed proposals. That means that, unlike e.g. Continental, Premium or Mini Maxi beds, each bed has most of the elements already included in the specification and they are not changeable (headboard, bed frame, etc.). However, you can choose the mattress and functions that your bed should have.

2. FABRIC

Choose the type and color of the fabric. Especially for you, we have selected a collection of several hundred fabrics. They will meet all expectations and the most demanding tastes. You can choose the fabrics in our showrooms or on www.newelegance.pl.

3. DIMENSIONS

Choose a model that suits your needs not only in terms of appearance but also in terms of external dimensions. Remember that some of the headboards are larger and extend significantly beyond the contour of the mattress and the bed body.

4. LEG

Most beds have 3 different legs to choose from. There are also some that have more, like Tiffany. Full offer you can see on page 51 of the catalogue. All wooden legs can be ordered in any color from the colouring list below.

Available leg variants

plinth F

plinth colors on page 51

5. WITH OR WITHOUT A STORAGE?

Additional bed functions and special equipment. The bed is available in several configurations of bed slats and storages. Choose the solution that suits you and your needs

bed **without storage**

The bed is equipped with a solid support for the bed slats.

Bed gives the possibility of mounting the bed slats at 3 different heights. This allows you to better adjust the bed to the height of the mattress.

To make the bed complete, you need to choose proper bed slats. Full offer can be found on page 45 of the catalogue.

front **opening lift up storage bed**

Two types of frames are available for storage beds: Standard frame or Comfort frame with front opening.

Mounting position of the frame in storage bed.

STANDARD L53 FRAME

- 24 flexible slats 53 mm wide
- spacing of 25 mm between lamellas
- metal frame with a cross-section of 40 x 30 mm
- bed slats height about 55 mm

COMFORT L38 FRAME

- 30 flexible slats with a width of 38 mm
- spacing of 25 mm between lamellas
- a metal frame with a cross-section of 40 x 40 mm
- bed slats height about 70 mm
- 6 lamellas with hardness adjustment

Flexible duoflex holders ensure double depreciation and no so-called dead zone in the middle part of the bed slats frame.

6. MATTRESS

Match the mattress to your bed. Complete offer of mattresses on pages 42-44 of the catalogue. You will find 7 mattress models in various types of covers there. Our mattresses are of the highest quality, which ensures comfortable and healthy sleep. You can also find additional mattress toppers in our offer.

BOHO
upholstered bed

In the picture, a bed in a fabric: **SPECTRA 01, FARGOTEX**

ATTENTION!

In a bed with a container, the foldable headboard requires the use of Mattress with a maximum height of 22 cm. The taller Mattress will make it difficult to tilt the movable part of the headboard. Standard equipment includes 2 sliding headrests. The bedside table STANDARD from the collection of complementary furniture N.E.2021 fits perfectly with the BOHO bed. For more chests of drawers and bedside tables, see page 41 of the catalog or visit www.newelegance.pl

NEW ELEGANCE
FURNITURE

The Mini Maxi bed system has been one of the bestsellers on the market for many years so far. Each year we present new designs, which combined with the huge possibilities of adjusting the dimensions to different rooms, enable you to personalize your own bedroom.

MINI MAXI BED SYSTEM

Suit the bed from the MINI MAXI collection to your needs.

7 steps to build your dream comfort.

1. APPEARANCE

Choose the look of the headboard. There are 10 models to choose from. Each one has a different quilting pattern. It is possible to order a bed without a headboard (only body C, G, W)

2. DIMENSIONS

The name of the MINI MAXI system comes from the idea that each headboard model can be obtained in the mini and maxi version. That's why we have so many size variants.

3. BED FRAME

The MINI MAXI bed range has 4 different bed frames to choose from. C *, G * and W ** bodies also available without headboard.

bed frame C (straight edge)

bed frame G (rounded edge)

bed frame H (joined 45°)

bed frame W** (straight edge, glider)

* Bed frame C and G in version without headboard, available with legs or gliders. Only available on the legs in the headboard version

** bed frame W only available with a glider.

4. LEG

Select the leg type. There are metal legs A, B and 35 and wooden legs C and 29. Plinth E is available in 2 versions - wooden and chromed. Wooden elements are available in 10 colors (see page 51 of the catalog).

MATTRESSES

mattress **ELITE 27**
medium firm, one-sided
mattress

- ① The upper part of the cover with the possibility of choosing a fabric, 1a) inner protective cover for the mattress insert
- ② Highly permeable fabric for excellent ventilation the inside of the mattress, which prevents the accumulation of moisture and the development of dust mites and mold
- ③ High resilience foam with thickness of 2 cm
- ④ Thermoelastic foam with a thickness of 3 cm (density 50 kg/1m³)
- ⑤ High resilience foam with thickness of 7 cm
- ⑥ Interfacing
- ⑦ Pocket springs medium hard of 12 cm height(255 springs per 1m² of mattress surface)
- ⑧ High density T-30 foam, 8 cm wide, preventing deformation of the mattress edges
- ⑨ Felt filling with a weight of 500 g
- ⑩ Hard foam with thickness of 3 cm
- ⑪ Quilted mattress fabric

Mattress **ELITE 21**
Medium firm, one-sided
mattress

- ① The upper part of the cover with the possibility of choosing a fabric, 1a) inner protective cover for the mattress insert
- ② Highly permeable fabric for excellent ventilation the inside of the mattress, which prevents the accumulation of moisture and the development of dust mites and mold
- ③ High resilience foam with thickness of 2 cm
- ④ Thermoelastic foam with a thickness of 3 cm (density 50 kg/1m³)
- ⑤ High resilience foam with thickness of 2 cm
- ⑥ Interfacing
- ⑦ Pocket springs medium hard of 12 cm height(255 springs per 1m² of mattress surface)
- ⑧ High density T-30 foam, 8 cm wide, preventing deformation of the mattress edges
- ⑨ Felt filling with a weight of 500 g
- ⑩ Hard foam with thickness of 2 cm
- ⑪ Quilted mattress fabric

Mattress **ROSA**
Medium firm, one-sided mattress

- ① The upper part of the cover with the possibility of choosing a fabric 1a) inner protective cover for the mattress insert
- ② Highly permeable fabric for excellent ventilation the inside of the mattress, which prevents the accumulation of moisture and the development of dust mites and mold
- ③ Thermoelastic foam with a thickness of 4 cm (density 50 kg/1m³)
- ④ Felt filling with a weight of 500 g
- ⑤ Pocket springs medium hard of 12 cm height(576 springs per 1m² of mattress surface)
- ⑥ High density T-30 foam, 8 cm wide, preventing deformation of the mattress edges
- ⑦ T-25 foam with a thickness of 3 cm
- ⑧ Quilted mattress fabric

mattress **FINEZJA**
medium soft, one-sided
mattress

- ① The upper part of the cover with the possibility of choosing a fabric 1a) inner protective cover for the mattress insert
- ② Highly permeable fabric for excellent ventilation the inside of the mattress, which prevents the accumulation of moisture and the development of dust mites and mold
- ③ Thermoelastic foam with a thickness of 4 cm (density 50 kg/1m³)
- ④ Felt filling with a weight of 500 g
- ⑤ Pocket springs medium hard of 12 cm height (255 springs per 1m² of mattress surface)
- ⑥ High density T-30 foam, 8 cm wide, preventing deformation of the mattress edges
- ⑦ T-25 foam with a thickness of 3 cm
- ⑧ Quilted mattress fabric

mattress **BOSS**
firm, double-sided
mattress

- ① The upper part of the cover with the possibility of choosing a fabric 1a) inner protective cover for the mattress insert
- ② Highly permeable fabric for excellent ventilation the inside of the mattress, which prevents the accumulation of moisture and the development of dust mites and mold
- ③ T-25 foam with a thickness of 3 cm
- ④ Coconut mat with a thickness of 1.5 cm
- ⑤ Felt filling with a weight of 500 g
- ⑥ Pocket springs medium hard of 12 cm height (255 springs per 1m² of mattress surface)
- ⑦ High density T-30 foam, 8 cm wide, preventing deformation of the mattress edges
- ⑧ Quilted mattress fabric

MATTRESSES

mattress RUBIN
firm, double-sided
mattress

mattress height 18

- ① the upper part of the cover with the possibility of choosing a fabric 1a) inner protective cover for the mattress insert
- ② Highly permeable fabric for excellent ventilation the inside of the mattress, which prevents the accumulation of moisture and the development of dust mites and mold
- ③ T-25 foam with a thickness of 3 cm
- ④ Felt filling with a weight of 500 g
- ⑤ Pocket springs medium hard of 12 cm height (255 springs per 1m² of mattress surface)
- ⑥ High density T-30 foam, 8 cm wide, preventing deformation of the mattress edges

mattress DALIA SMART
firm mattress

mattress height 18 cm

- ① Cover made of Jersey type fabric, in white, quilted on the 150g unwoven cloth, without the choice of fabric.
- ② T-25 foam with a thickness of 3 cm
- ③ Felt filling with a weight of 500 g
- ④ Bonnel springs with frames
- ⑤ High density T-30 foam, 8 cm wide, preventing deformation of the mattress edges

MATTRESSES IN LUX VERSION FOR CONTINENTAL BEDS

Each mattress from the N. E. 2020/2021 offer can be ordered in the LUX version. This version means that the edge of the mattress is finished with the same fabric as the bed frame and the headboard. This solution is especially recommended for continental beds. By using a mattress in the LUX version we obtain a homogeneous edge of the bed and the mattress.

Mattress cover in LUX version

Mattress fabric to choose from (fabric patterns can be found on next page)

Side of the mattress made of upholstery fabric (as at the headboard and bed base)

CHOOSE A FABRIC COVER FOR YOUR MATTRESS

FLOWER 3D

3D flowers is an extremely strong fabric with a three-dimensional structure. The unique Italian design with a floral motif gives the cover a prestigious look. It is made of polyester yarn that provides very high durability. Even numerous washing at a maximum temperature of no more than 40 ° C does not adversely affect the fabric's loss of its technical parameters. It is characterized by very good air permeability, which makes the mattress internal fresh and clean. The fabric works very well on a cover for thermoelastic mattresses. It fits perfectly with the mattress insert, which adapts to the body. It has a high basis weight of 500 g/m²

AMICOR Zn 3D

The most important feature of the Amicor fabric is the content in its structure of unique acrylic fibers. As a result, the fabric is durable and does not lose its properties even when washing at temperatures up to 40 ° C. Amicor fibers fulfill two functions: antibacterial and antifungal. The antibacterial function is related to the Irgasan content that prevents from bacterial growth and eliminates the unpleasant smell of sweat. For this reason, such fabric for a cover is especially recommended for people with increased sweating. It allows you to get a feeling of freshness and comfort of sleep also in a warm climate. In turn, the antifungal function consists in the neutralization of microorganisms appearing on the surface of the mattress, which, penetrating into its interior, could become food for mites. In combination with the very high ventilation provided by the cover Amicor mattress becomes cleaner and our sleep healthier. The Amicor fabric is strong, very durable, with a dense structure (weight 500gr / m²). The fabric retains its antibacterial and anti fungal properties regardless of the number of washing cycles. The maximum washing temperature should not exceed 40 ° C.

SILVER AG+ 3D

SILVER AG + 3D is a fabric with a very high density of 500gr / m². Its unquestionable advantage is the content of silver ions, which act antibacterial and antistatic. Silver ions also inhibit the proliferation of mites and mold growth, as well as prevent the formation of unsightly odors. Silver removes electrostatic charges accumulating on our skin through contact with synthetics. Thanks to that we relax faster and we are able to rest more effectively. Silver AG + fabric has lyocell fibers on its surface, which makes it very durable, while retaining exceptional delicateness in contact with the skin. The presence of lyocell fibers also positively influences the absorption of moisture through the cover and prevents its penetration into the interior, which translates into the cleanliness of the mattress. Taking into consideration all the properties of SILVER AG + fabric, it is especially recommended for people sensitive to all skin irritations and allergies. The fabric retains its antibacterial and antistatic properties even after 5 washes. The maximum washing temperature should not exceed 40 ° C.

THERMO 37°

The fibres of this fabric contain paraffin PCM capsules capable of keeping a constant body temperature at 37 ° C. Appropriate constant temperature means healthy and good sleep comfort. We especially recommend it for mattress covers made of thermoelastic foam which, due to its perfect adaptation to the body, automatically increases its temperature. The THERMO 37 ° fabric ensures a lower temperature and retaining it at 37 ° C. PCM Cell Solution Clima capsules are in a mixture with Lyocell fibers, which in turn are responsible for the elimination of moisture, bacteria and sweat. The maximum washing temperature should not exceed 40 ° C.

Milky - Pleasure in 3D

Mattress cover is made of double fabric with 3D effect. The rich content of amino acids in the cover ensures proper hydration of the skin. It also has antibacterial properties, provides comfortable sleep on an extremely soft surface and allows free air flow between the body and the surface of the mattress. The maximum washing temperature should not exceed 40 ° C.

THERMOELASTIC FOAM VENTILATED PILLOWS

Anatomic pillows are made of thermoelastic foam, the properties of which enable a perfect fit to the line defined by the arms, neck and head. That provides the proper way to support the spine during sleep and rest. The foam adapts to the shape of the body under the impact of temperature. The air channels used in the pillow ensure its proper internal ventilation. The profiled pillow brings relief in the case of many ailments, such as neck-ache, backache, headaches and snoring. It is also possible to choose a cover.

BED SLATS FOR BEDS WITHOUT STORAGE

STANDARD

- 28 elastic slats with a width of 35 mm
- 5 slats with hardness adjustment
- bed slats height approx. 5 cm
- spacing between slats 25 mm

ECONOMIC DUO

- self-assembly
- 28 elastic slats with a width of 35 mm
- bed slats height approx. 3 cm
- spacing between slats 32 mm

BED SLATS FOR STORAGE BEDS

STANDARD FRAME L53

- 24 flexible slats with a width of 53 mm
- spacing between lamellas 25 mm
- a metal frame with a cross-section of 40 x 30 mm
- bed slats height about 55 mm

STANDARD FRAME L53

- it is a metal bed slats for a bed with a container ensuring satisfactory quality while having a very affordable price. Its construction was based on a system of flexible slats made of layered glued non-coniferous hardwood fixed on a metal frame. The central beam of this frame has an additional reinforcement on both sides. Small spacing between the slats allows the use of a bed slats for any type of mattress also for hotels and guest houses.

COMFORT L38 FRAME

- 30 flexible slats with a width of 38 mm
- spacing between lamellas 25 mm
- a metal frame with a cross-section of 40 x 40 mm
- bed slats height about 70 mm
- 6 lamellas with hardness adjustment
- Flexible duoflex holders provide double cushioning and no so-called dead zone in the middle part of the bed slats.

COMFORT L38 FRAME

- it is a metal bed slats for a bed with a container with a double center beam providing a very stable, and at the same time extremely flexible support for the mattress. The system of narrow transversely springy slats of layered glued non-coniferous hardwood placed in elastic duoflex pockets allows it to be used for all types of mattresses. Complementing the high comfort of this bed slats is the ability to adjust its hardness. In this way, each user can adjust the desired support hardness for his mattress depending on his expectations and weight.
