H

Highest quality, unique chairs and other solid wood furniture directly from modern factories in Poland.

Our greatest advantages are experienced specialists, designers, wood of the best quality and centuries-old tradition of furniture crafting.

Poland has been the fastest-growing manufacturer and exporter of furniture for more than 20 years.

Leading German, French, English, Italian and Swedish furniture brands appreciate our potential and produce furniture in factories located in Poland.

In our regular offer for wholesale customers are bestseller models of chairs, armchairs, tables and other furniture.

We can also manufacture any unique furniture requested by client.

We are a world leader in manufacturing contract furniture for hotels, restaurants and public spaces.

The offer includes classic, modern, glamour and much more styles of furniture produced from solid wood.

We have the lowest production costs of high quality furniture in Europe, therefore we can offer our customers the best prices.

40

40 years of tradition. The third generation moves in...

My name is Kazimierz Łesyk and I am the president of the family partnership AJRAM Sp. Z o.o. Wood, as a natural resource has always fascinated me. When I was a child I used to produce different, wooden items. It was a great pleasure for me and when I got older the passion changed into my profession. My first professional steps were to establish and open a sawmill - over 40 years ago. After a few years both with my wife Maria we decided to set up a carpentry shop in which, initially, small chair items were produced. I called the company my wife's name read backward- AJRAM. Our company was growing for years, till 2006 when it was altered into a partnership, where our family has 100% of shares and, therefore, also full decision making.

I inspired my three sons, with whom we all are in charge of our family factory of chairs and tables. Our passion and pursuit of perfectionism let us establish the modern and successful company. Each stage of the production, to begin with the raw material's selection, its processing, to the final effect in the form of the finished piece of furniture is carefully held in our factory under our experts' supervision. Due to this we have the opportunity to offer the wide range of catalog's products and to conform to our client's needs. We continuously educate, develop, expand our machinery park to produce, in connection to our experience, unique products which are bought and appreciated in Europe, America and also Asia, Africa, even Australia.

The brand „AJRAM” was established with our demanding clients in mind, who look for long-lasting, natural, unique, high quality products and expect flexibility and understanding their needs. Our products are precisely for you.

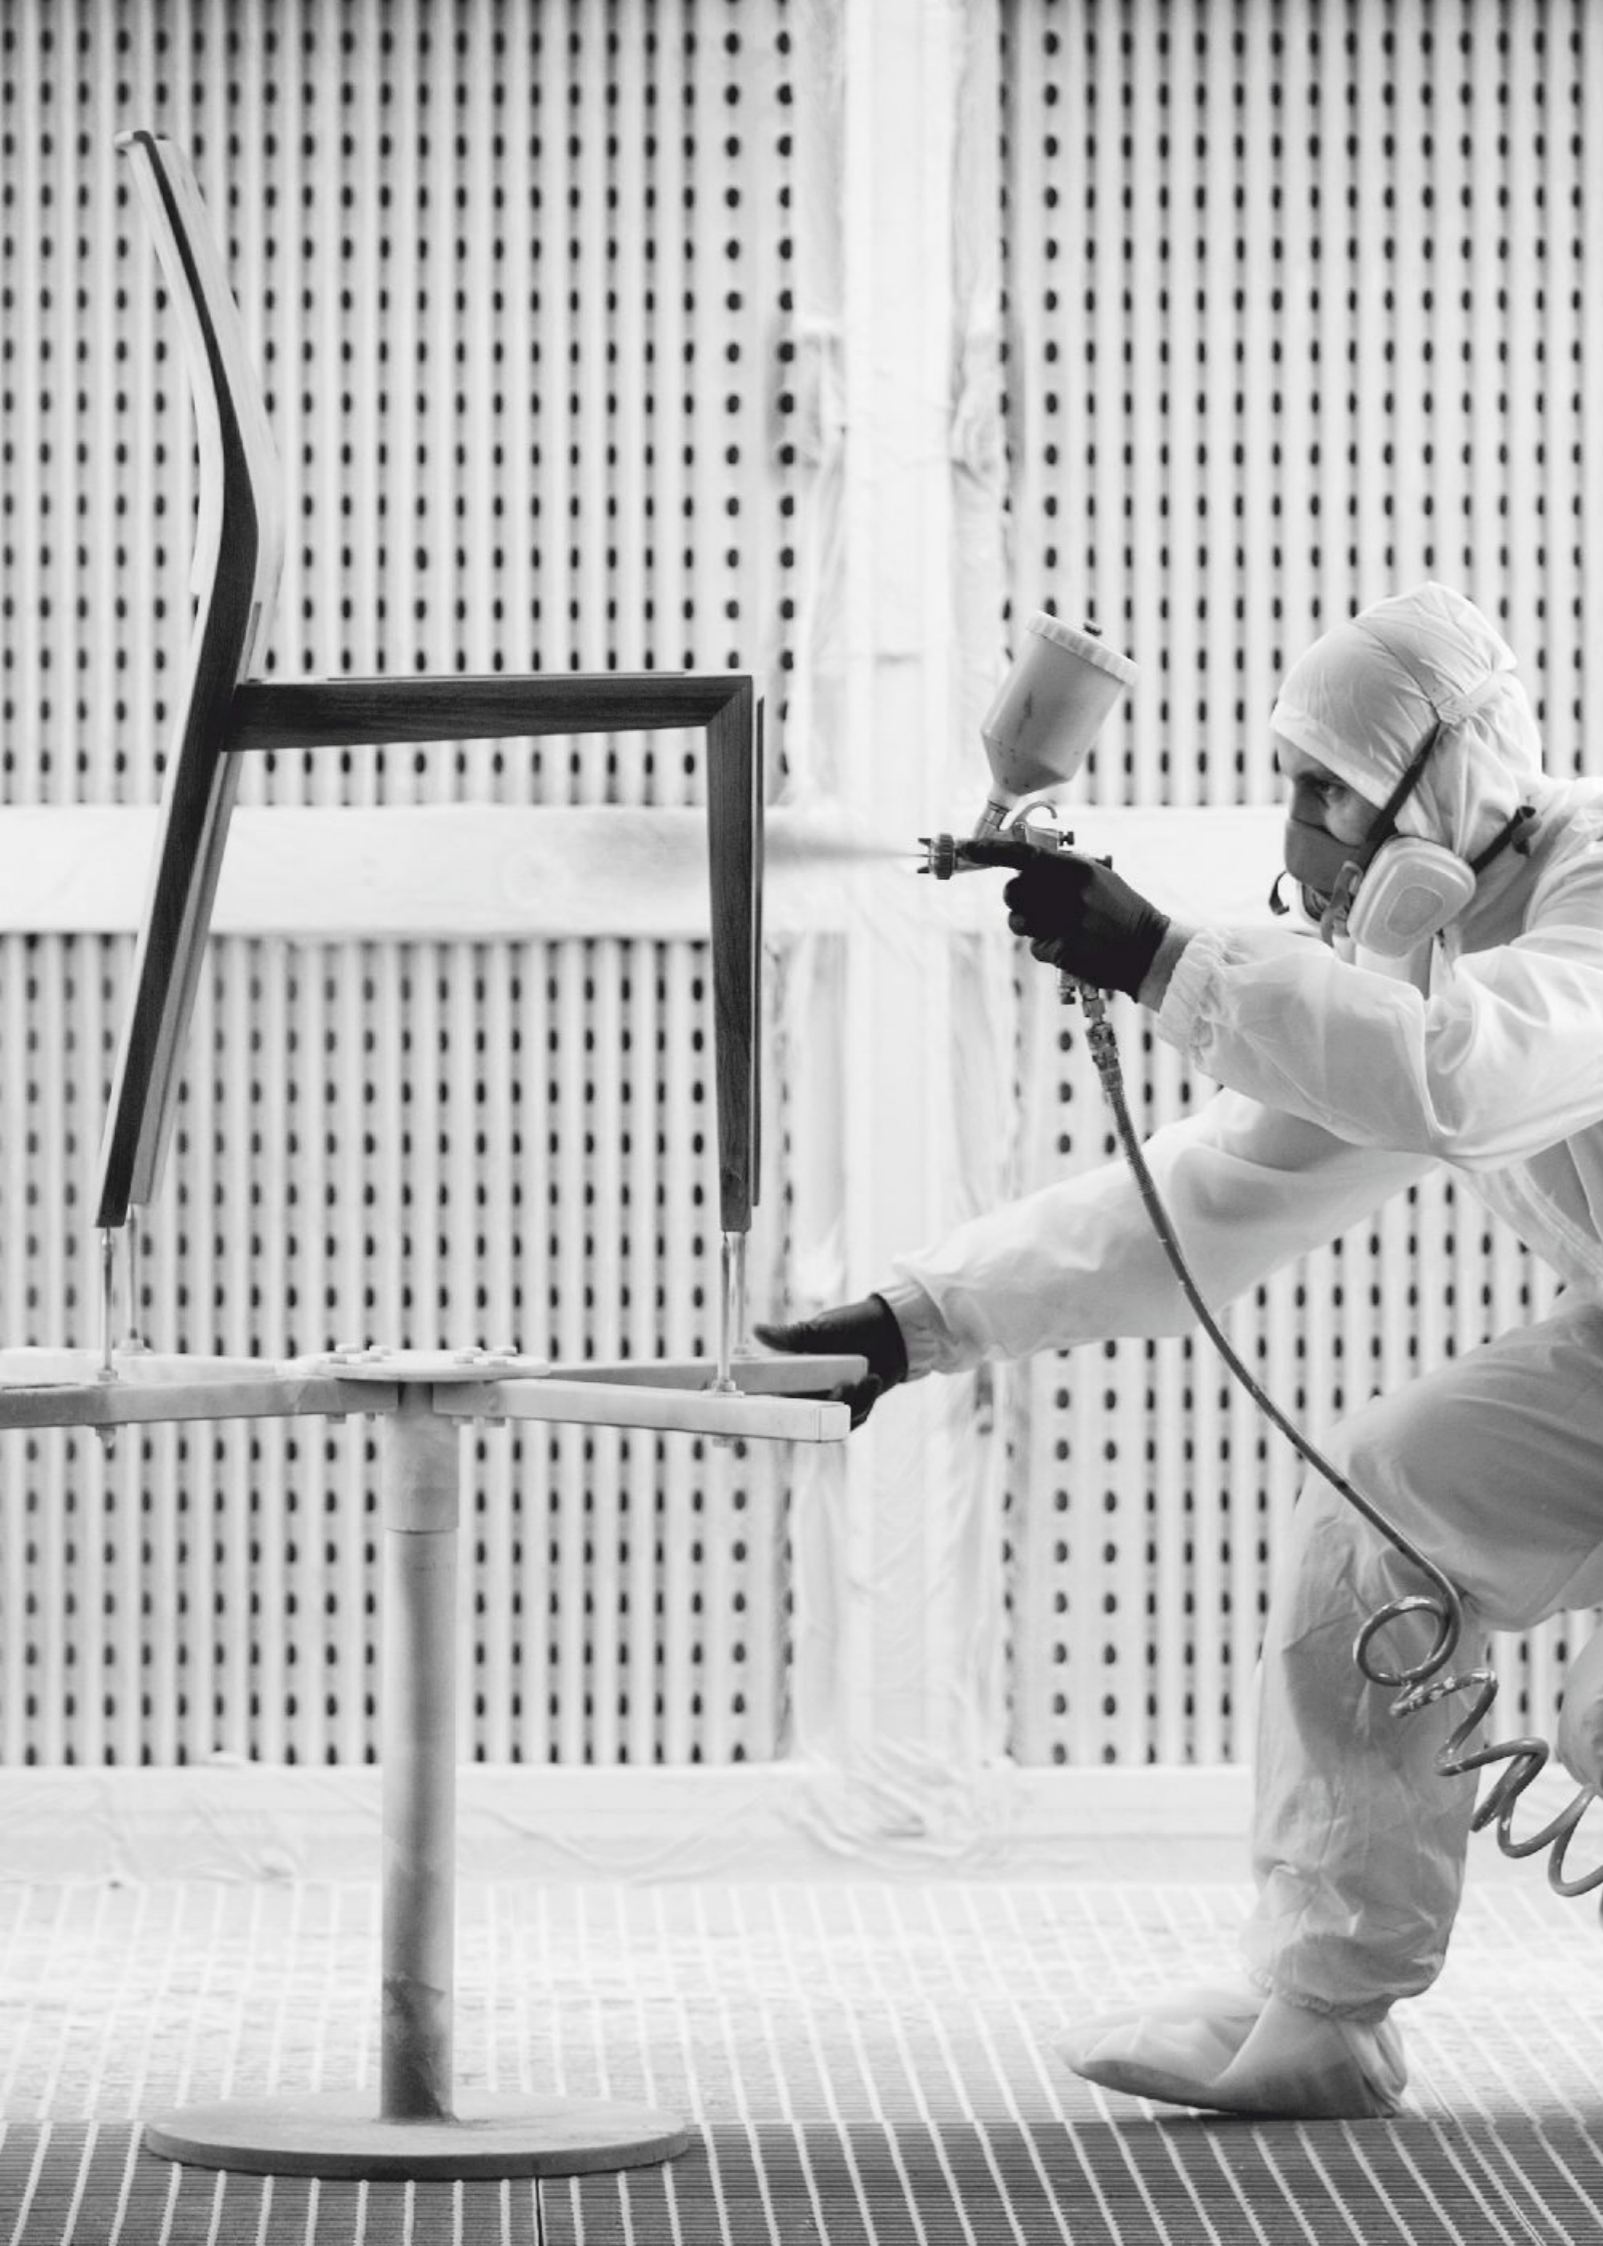

Highest quality solid wood only from Polish forests. Our raw materials are sourced with care for the environment.

Our furniture is designed by creative and talented designers who pay attention for it to not only be aesthetically pleasing, but also comfortable and durable.

The most part of the production process takes place in modern, automated manufactures.

Every piece of our unique furniture is finished by hand by our experienced craftsmen with attention paid to tiniest detail.

Our offer contains also renovation of furniture, including antiques. We will restore the splendor of furniture in your hotel, restaurant or residence.

C Contract furniture

We manufacture the highest quality contract furniture for all types of investments - hotels, restaurants, theatres, offices, conference facilities, educational, public spaces and residences. We provide furniture for all continents.

Our offer includes modern, classic, glamour, Italian and any other style of furniture. We specialize in the highest quality solid wood furniture but other types of materials and all types of finishing are also available.

We are able to manufacture any type of hotel and restaurant furniture strictly according to the provided design and selected materials. We also carry out renovation projects, including antiques.

We implement luxury and economic projects, large and middle size, always ensuring a short delivery time, great durability and long-term guarantee of our contract furniture. At the same time, our prices are very competitive!

We invite to cooperation interior architects, designers, and projects' owners.
