# Four worlds...

Every one of us is different. Our homes are full of unique stories. The stories about what we love and what makes us feel better. For this reason, every interior we arrange is unique. The furniture we choose shows our style, who we are and... how we live.

The most beautiful stories are created by the interior arrangements that we really put our hearts into. The furniture may communicate what we want to say. Starting from the moment a guest crosses the threshold, furniture may represent your brave soul, soothe the senses with timeless romanticism, perfectly match the latest trends or just, thanks to practical solutions, ensure maximum comfort every day.

Romantic, modern, brave and practical. Comfort may have many faces. We invite you on a journey to the four feminine worlds of the Soul collection.

Go for the style that will help you express yourself.

“Regardless of who you are, where you live and how your home looks - in this collection you will find leisure that fits your lifestyle perfectly.”

**Lucyna Kuciejczyk**

Furniture is a creation that combines functionality with beauty. The idea for a perfect product has to include not only beautiful and useful forms and quality of execution, but also understanding of the needs and expectations of customers. For this reason, while creating the Soul collection, we tried to look at our work from multiple perspectives and to never lose track of details. They are the elements that create the whole, and every one of them - even the smallest one - makes a huge difference.

*Lucyna Kuciejczyk*

**Grzegorz Duszak**

Our goal was to create the pieces of furniture that provide perfect comfort of use everyday, and among which every woman can find part of herself. Our every creation is unique, just like every design we worked on is exceptional. Together with the Soul collection, we invite you on a journey to the world of exceptional comfort, where beautiful furniture changes ordinary interiors into places you can call home.

*Grzegorz Duszak*

Dimensions of upholstered furniture shown in the catalogue are expressed in cm in the following order: width/height/depth.

# Perfect project deserves the best implementation

We treat every project individually. From the first meeting, when we sit down together at the table, until the moment of arranging even the smallest detail. Our furniture is created by people - it is the work of their hands that makes our products reach the homes of our customers.

**1**

Everything starts with a design. The ideas put on paper constitute the beginning of the particular stages of production.

The work on modelling the project of a piece of furniture is a process during which an artistic sketch is subjected to technical analysis.

**2**

We create structure - one of a kind, solid base for the whole.

**3**

**4**

Equipping sounds raw. At this stage, we mount springs and belts, thanks to which the piece of furniture meets the highest standards of comfort.

**5** The corpus equipped with springs and belts goes through the plastering stage. This is the stage when the piece of furniture is covered with foam, which gives it exceptional softness.

The ready furniture is subject to thorough quality control. We ensure that customers are provided with only those pieces of furniture that are refined to the finest detail.

**9**

The tailor-made cover is placed on the corpus of the piece of furniture. We match each detail and stretch the fabric so that the product will satisfy even the most demanding customers.

**7**

**6** While the complete structure of a piece of furniture is being created, the work on its padding is underway. We cut and sew to create a cover that will subsequently be subjected to thorough quality control.

**8**

Time for jewellery and practical aspects. Our upholstered furniture is enriched with mechanisms which increase its usefulness and decorative details as well.

The products that have passed through the stage of control are packed with the greatest care so that they reach homes of our customers in perfect condition.

**10**

Look. Sit back. Touch. Relax.  
Visit us in one of our show-  
rooms and try furniture  
designed for pure comfort.
