Leather and fabric

Gala Collezione furniture is offered in a **wide color palette**, made of **highest quality natural leather** and **high class fabrics**. Select the upholstery material which matches your needs and your home decor best in terms of texture and color.

The natural leather used to produce the Gala Collezione living room furniture is sourced from the best, proven tanneries. Each skin is carefully selected and cut by experienced cutters. You can be sure that the furniture you'll pick for your living room will have top-tier upholstery. Furniture leather is available in several dozen different hues - use the pattern books available in furniture salons to select the color that suits you most. This upholstery type will give your furniture a timeless character, stressing its unique design.

The Gala Collezione offer includes **textiles** with different properties and textures, including braiding, velvet, knitwear, flocked fabrics and chenille. These textiles differ from one another not only in terms of appearance, but also in terms of their technical parameters. All textiles are selected to guarantee the highest quality and long-term, problem-free use of the furniture item, and their color palette is so wide that every individual taste will be satisfied.

Remember that textile thickness does not always mean higher durability. Selecting the textile for your furniture, pay attention to its parameters, such as the presence of various fabric finishes which hinder the absorption of liquids, finishes which make water-based cleaning easier, resistance to tearing or stretching, snag-resistant structure, which makes it perfect even for households with animals.

Smart solutions

Sleeping functions types:

Type A - DELFIN

Slide the cart from under the furniture item and slightly lift the foam mattress to level up the sleeping surface with the seating area.

Type B - LEOPARD

Slightly lift the front part of the furniture item, then pull it towards you to unfold the seating area. The sleeping part will lift automatically.

Type C - TROLLEY

Slide the cart from under the furniture item, pulling it towards you. Then rotate the seating area to level up the sleeping surface.

Type D - SEDALIFT

Pull out the cart, and then unfold the mattress and the folded foot that supports the structure. A thicker mattress provides an extra comfort.

Type E - BELGIAN FRAME

Resembles a cot in terms of structure, and unfolds like one. The seating part must be removed for the bed to unfold.

Type F - ITALIAN FRAME

Pull the handle on the top of the backrest and unfold the frame which supports the mattress.

Type G - DL

Slide the seating part towards you, and then rest your back to obtain different sleeping positions.

Type H - C.S.T.

This sleeping function unfolds like a traditional sofa bed.

Other functions:

Relaxation function

This function allows you to adjust the tilt angle of the back- and footrest, so that you can rest comfortably in any position, from sitting upright to semi-reclined. The relaxation function can be controlled manually (relying on the user's own strength) or by means of electrical sensors, discreetly placed between the seat and the side of the furniture item. The electric relaxation function can be powered by a battery or an electric mains socket.

Headrests

Thanks to the gradual adjustment of their tilt angle, our headrests provide comfortable support for your neck when reading, watching TV or relaxing. Optionally, the mobile headrests can be moved to any other place.

Liquor cabinet

With cubbyholes opened from the top, drawers sliding out from the front, wooden countertop, which you can use as a coffee table, with countertop upholstered with leather or fabric, triangular or rectangular, with cup holders – there are many types of liquor cabinets which offer plenty of opportunities.

Movable seat

Electrically operated movable seat guarantees the possibility of increasing its depth. The slide-out seat can be successfully used for resting in a sitting and a semi-reclined position.

Explanation of pictograms

	modular system		movable armrests with Safe Mechanism system		liquor cabinet with a box
	sleeping function type A (DELFIN)		movable seat, controlled by electrical sensors		selection of upholstery types (leather or fabric)
	sleeping function type B (LEOPARD)		movable backrests		possible combination of at least two colours (leather with leather, leather with fabric or fabric with fabric)
	sleeping function type C (TROLLEY)		movable brackets with Automatic Return System		selection of thread colour
	sleeping function type D (SEDALIFT)		movable headrests with adjustable tilt angle which form an integral part of the furniture		decorative wood elements (shelves, countertops)
	sleeping function type E (BELGIAN)		movable headrests with Automatic Return System		swivel armchair
	sleeping function type F (ITALIAN FRAME)		optional removable headrests that can be installed on any backrest		swivel armchair (360°)
	sleeping function type G (DL)		backrest / corner elements with loose cushions		possible selection of armchair base type
	sleeping function type H (C.S.T.)		a bedding container		wooden legs (possible selection of wood colour)
	manually unfolded relaxation function (available only in leather upholstery)		additional container / compartment		chrome legs
	electrically unfolded relaxation function - the armchair has to be connected with a cable to an electric mains socket		top elastic filling		metal legs
	electrically unfolded relaxation function - the armchair is supplied from a battery - no need to have a mains socket		high resilience foam		plastic legs
	electrically unfolded function RELAX PLUS - the armchair has to be connected with a cable to an electric mains socket		polyurethane foam		wheels
	electrically unfolded function RELAX PLUS - the armchair is supplied from a battery - no need to have a mains socket		silicone filling in the backrest and / or headrest		platform legs
	required distance from the wall		wave springs		
	movable armrests with adjustable tilt angle		Bonell springs		

Notices:

Actual size of furniture may differ from the size declared in the Manufacturer's commercial offer. The permissible deviation of dimensions from the declared ones is:

- +/- 2 cm if the declared dimension (width, depth or height of the furniture in ready-to-use configuration) is less than or equal to 150 cm,
- +/- 2.5 cm if the declared dimension (width, depth or height of the furniture in ready-to-use configuration) is greater than 150 cm.
- Freestanding items and armchairs with relaxation function available only in leather upholstery.
- Relax upholstery do not fulfill a function of sleeping beds, due to the abovementioned the sleeping function in most of the models should be used rather occasionally.
- The audio panel has been withdrawn from the offer. Although it occurs on selected photos, further sale is no more available.

2D creator

www.DesignYourSofa.online

If you want to configure a corner settee or sofa from one of selected modular systems on your own, use the 2D creator of Gala Collezione available at the address: www.DesignYourSofa.online.

A computer with access to the Internet and any web browser are enough. You do not have to know anything about designing or programming. The creator is very friendly and intuitive. **It has been designed to guide you step by step through the process of configuring the furniture.** In each stage, you can benefit from any kind of hints and explanations thanks to which you will precisely know what you should do at a particular moment and what effect you will get.

Designing stages in 2D creator

Step 1 - prepare dimensions of a room where you want to place the sofa

You start designing from drawing the shape of the room and placing obstructions situated in it. The obstructions are elements of equipment such as cabinet furniture, flower pots, potential pillars supporting ceiling, doors, partition walls and other.

Why is it important?

- thanks to this, **you will know whether the designed sofa will fit into the room** and whether it will be possible to maintain free passageway and easy access to windows, balcony, table in the dining part etc.,
- by determining dimensions of the room, you define the scale according to which the furniture will be designed - thanks to this, **the system will choose the size of concrete block on its own so that it will be consistent with the dimensions**

Step 2 - choose the modular system which you like

At any time, you can read the description of a collection selected by you and get to know the functions which you can place in the designed furniture. If you have chosen the modular system, you can start configuring the sofa. From a list of available blocks, you select those you are interested in. The creator will prompt you on a current basis what blocks can be combined with each other to be able to easily benefit from these functions (e.g. unfolding the sleeping function or relaxing function).

Step 3 - print the summary and buy the furniture

After completion of designing, you can print the summary containing the drawing of the configured sofa and specification of selected blocks. Take them with you to the furniture store where you want to buy the furniture. A seller will be able to accept your order at once, and you will focus entirely on selection of the colour and type of upholstery.

For Interior Designers

If you're a professional or amateur designer or interior designer, visit our **DESIGNER ZONE** at www.GalaCollezione.com, where you'll find all the materials and useful tools you'll need in your everyday work and to prepare unique and attractive interior designs for your clients.

The DESIGNER ZONE is an extensive, systematically updated section containing, among others:

- CAD libraries containing 3D models for the latest Gala Collezione furniture collections; the libraries were prepared in four most popular formats: DWG, OBJ, MAX and 3DS, packed into conveniently downloaded packets,
- libraries of colors and textures of natural leather, the most popular textiles and wood tints used in furniture legs, countertops and other wooden elements,
- electronic versions of current furniture catalogs offered by the Gala Collezione Furniture Factory.

All materials are available free of charge and without the need to log in. Simply download them at any time onto your computer, selecting the format of your choice. The materials are grouped in several separate tabs for your convenience.

Download
3D models

View at home

See if this piece of furniture fits into your home

View at Home is a free application designed for Android and iOS phone and tablet users. **It has been made to help you make a decision about buying lounge furniture to a living-room.** Its advantages:

- displaying photos of and information about Gala Collezione furniture in a simple and quick way,
- possibility of designing the sofa easily on your own, comprising elements of particular modular system of Gala Collezione thanks to simple configurator - it also allows selecting the colour of upholstery and viewing 3D visualisation of configured furniture,
- owing to the AR (Augmented Reality) technology, you can check how the piece of furniture selected or configured by you will look like on a scale of 1 to 1 in your house.

What do you gain thanks to the View at Home application?

- **You will make sure how your furniture will look like in your living-room, before you buy it** - whether it will fit into it for sure (because you will see it on a real scale on your mobile device's screen), whether it will match the colour and shape arrangement.
- Owing to the 3D visualisation, **you will see a piece of furniture from every side** - front, top, back, side, unfolded and folded, so if you do not even see the furniture in the store, you will see how it actually looks.
- You will be able to freely change the configuration of the furniture until you select the configuration which fully meets your expectations and fits the dimensions of your living-room. Moreover, **you will be able to „try on“ to your living-room many different pieces of furniture, looking for the one you like best of all.** And all this without leaving home.
- As soon as you finish the furniture configuration process, you will be able to generate a summary, print it and go with it to the selected furniture store to buy the furniture of your dreams.

How to use View at Home?

At www.GalaCollezione.com find the furniture you are interested in, click on the banner **„See if this piece of furniture fits in your home“** to open the 3D configurator, then follow the instructions on the screen.

Scan the QR code. When using for the first time, you will be forwarded to App Store or Google Play to download the application, and during another use - directly to the application.
