

A detailed botanical illustration in a classic style, featuring a variety of plants and animals. In the upper center, a monkey is shown in profile, eating from a branch. To the left, a large green frog is depicted on a leaf. On the right, a toucan with a large, colorful beak is perched on a branch. The background is filled with various types of leaves and ferns, creating a lush, naturalistic scene.

# FLORA

Innovation starts from what has ever been here: Nature.

Without trees and flowers, lawns and bushes or leaves and branches, our world would be a lot different, probably a desolated land covered by arid rocks.

This collection celebrates plants and nature, turning your home environment into a dreamy land of foreign animals and exotic woods.
